

How do I edit a Web Content link?

Go to the Web Content link.

Select the **Web Content** link (e.g. Sakai Project) from the Tool Menu in your site. This displays the re-launch page.

Click **Edit**.

 **SAKAI PROJECT**

Page launched in a new window.

[Re-launch page in a new window.](#)

Click the **Edit** icon located in the top right corner of the page.

Make your changes.

SAKAI LMS

Customize Web Content

* Tool Title

Sakai LMS

* Page Title

Sakai LMS

Choose a custom icon

Frame Height 1200 pixels

URL <https://sakailms.org>

Open in new window?

Note: Applies only to secure (https://) URLs that allow framing. Most major websites do not allow framing. A non-secure (http://) URL will always open in a new window.

UPDATE OPTIONS

Cancel

Edit any or all of the following:

- Tool Title
- Page Title
- Custom icon
- Frame Height
- Custom height
- URL
- Open in new window

Click the **Update Options** button to save your changes.

View updated link.

The screenshot displays the Sakai LMS interface. At the top, there is a dark blue header with the Sakai logo on the left and a search bar on the right. Below the header, a navigation bar shows 'Home' and 'MPH 001 002 Spring 2020'. A left-hand menu lists various tools, with 'Sakai Project' highlighted. The main content area features a banner for the 'SAKAI LEARNING MANAGEMENT SYSTEM' with a background image of a smiling graduate in a green cap and white gown. The banner includes the Sakai logo and navigation links: 'Welcome', 'Features', 'Sakai Community', 'Try Sakai Now', 'News', 'Accessibility', 'Sakai Brand', and 'More'. A search bar is also present in the banner area.

Click the Web Content tool menu link (e.g Sakai LMS) to display the updated link.
