

# How do I embed an mp3 audio in a text box?

In the text box, position your cursor where you want to embed the mp3 audio file.

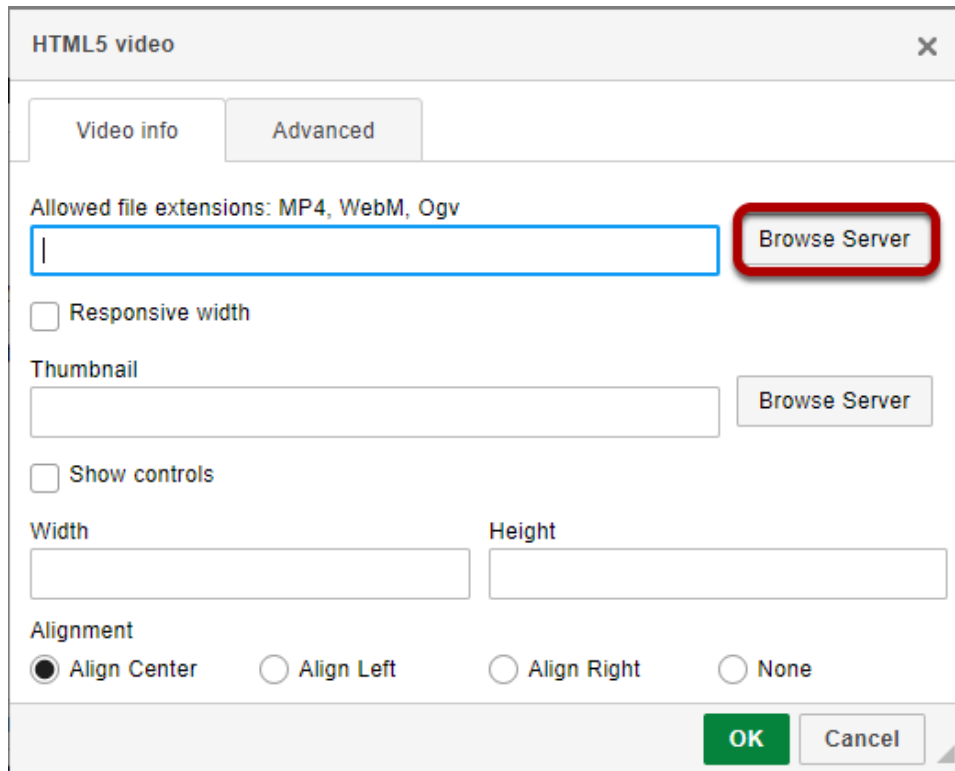

Click Insert/Edit Movie.

This displays the Movie Properties dialog box.

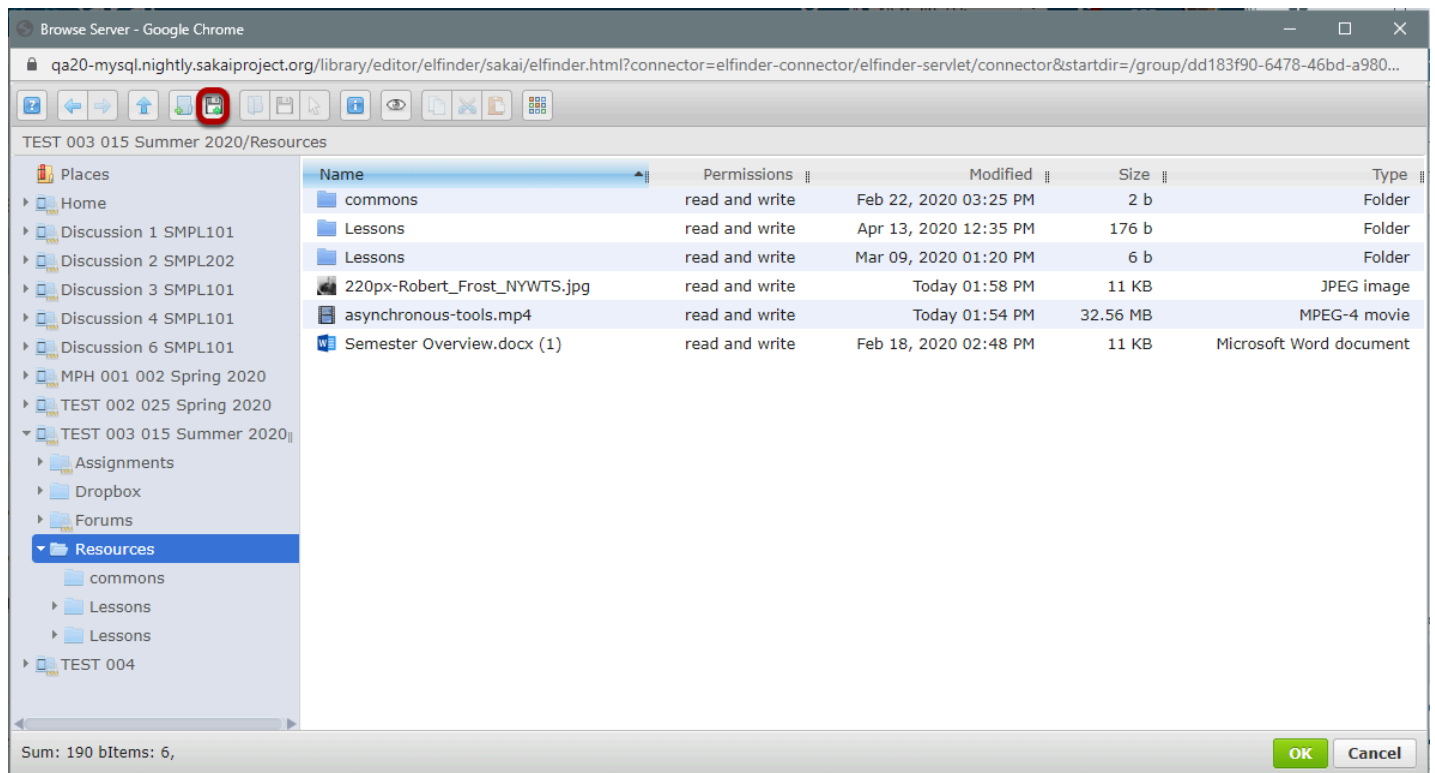

## Click Browse Server.

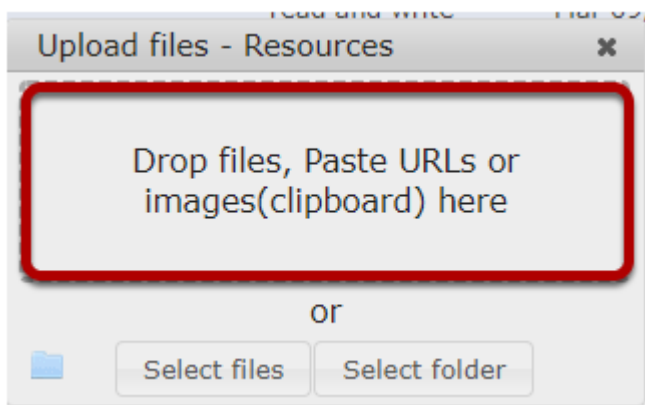

The image shows a dialog box titled "HTML5 video" with a close button (X) in the top right corner. It has two tabs: "Video info" and "Advanced". The "Advanced" tab is selected. Below the tabs, there is a section for "Allowed file extensions: MP4, WebM, Ogv" with an empty text input field and a "Browse Server" button. Below this is a checkbox for "Responsive width". The next section is "Thumbnail" with an empty text input field and a "Browse Server" button. Below that is a checkbox for "Show controls". The "Width" and "Height" fields are empty text input boxes. The "Alignment" section has four radio buttons: "Align Center" (selected), "Align Left", "Align Right", and "None". At the bottom right, there are "OK" and "Cancel" buttons.

This displays the Entity Picker dialog box.

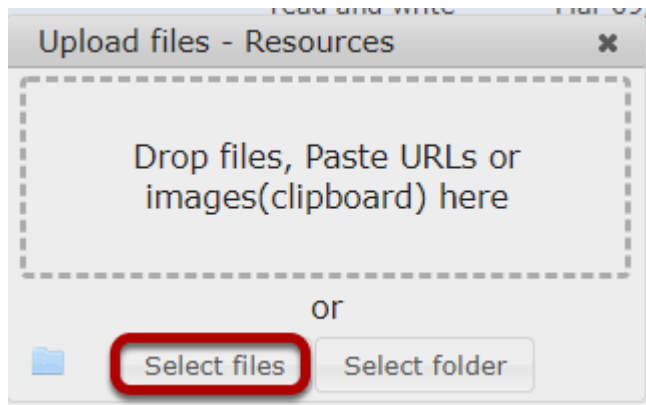

## Click the Upload file icon.

## Drop files or paste URLs or clipboard images.

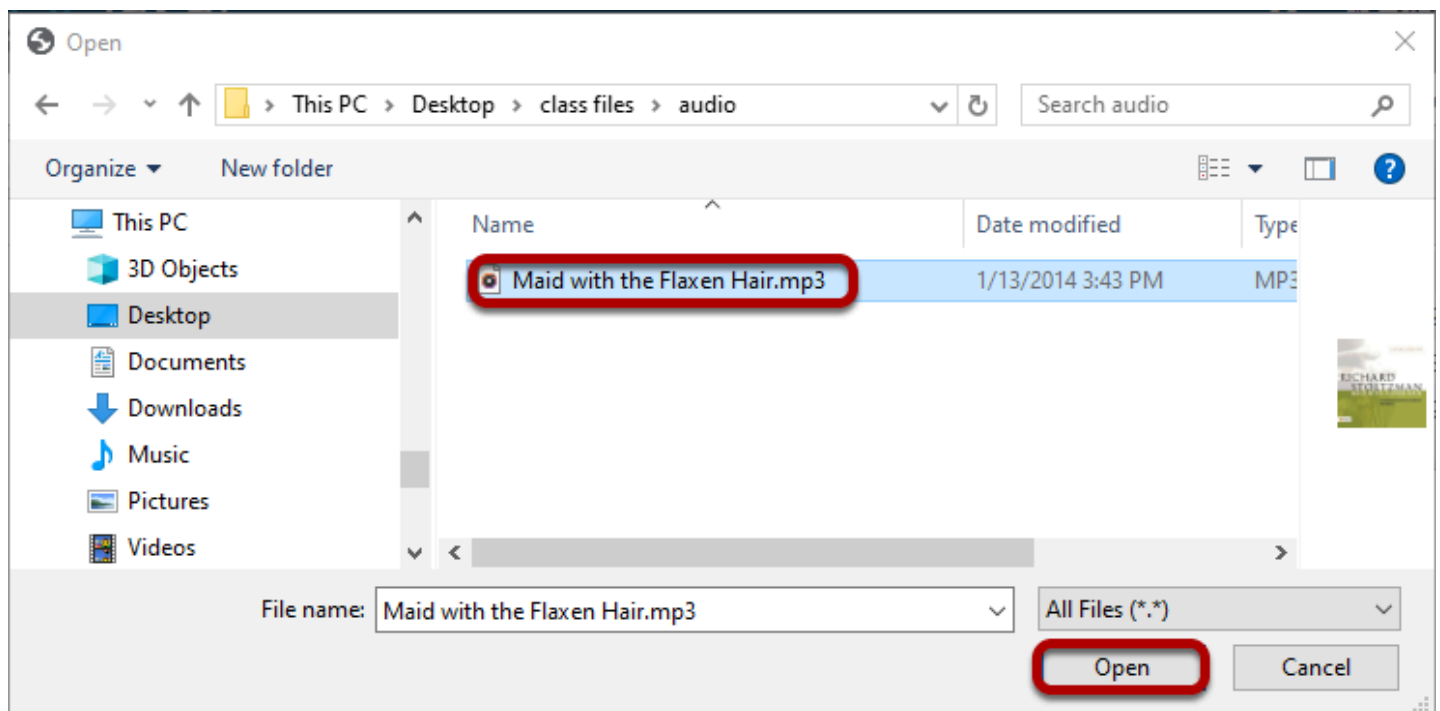

## Or click **Select files**.

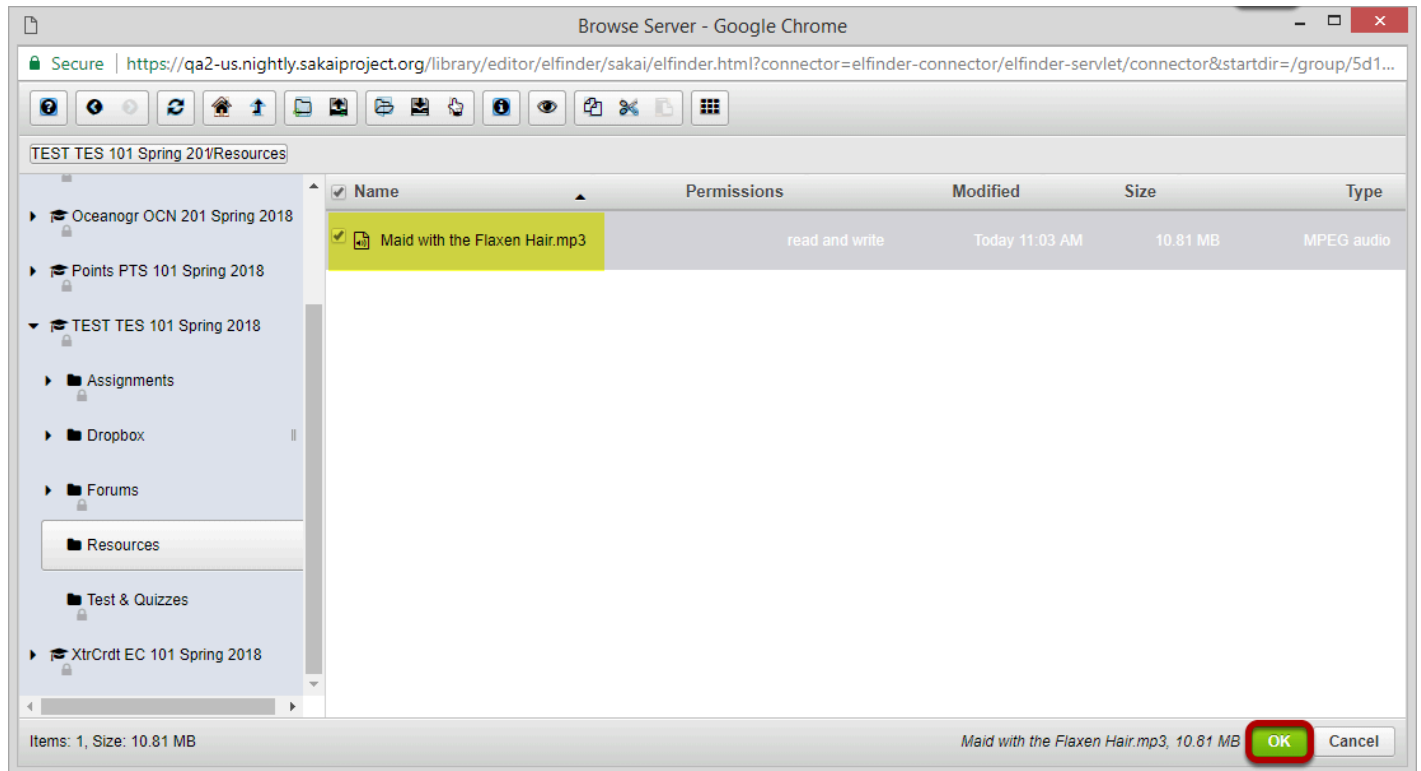

This displays an upload file dialog box.

## Select the mp3 audio file you want to embed in the text box.

Once you have located and selected the audio file, click **Open** to upload it.

Click OK.

Once the file finishes uploading, it will show in the file directory listing and will be selected by default. Click **OK** to continue.

**Check the boxes for Responsive width and Show controls, and then click OK.**
