

How do I set up my Gradebook?

The Gradebook is the hub for all graded activities and points earned in your site. There are several settings you can set up for your site, such as Grade Entry in points/percentages, Grade Release Rules, Categories and Weighting, and Grading Schema.

Go to Gradebook.

Select the **Gradebook** tool from the Tool Menu in your site.

Click Settings.

1. Check the **Display assignment statistics to students** box to allow students to view the distribution of grades for individual assignments.
2. Check the **Display course grade statistics to students** box to allow students to view the distribution of overall course grades for the class.

Note: These options are typically selected by default. (Your system administrator may configure the default to be de-selected by setting the appropriate property in the Sakai system configuration file.)

Categories and Weighting

▼ Categories & Weighting

- No categories
- Categories only
- Categories & weighting

A category will only be visible if there is at least one Gradebook item assigned to it.
If 'Categories & weighting' is enabled, uncategorized items will not be counted toward the course grade.

You can choose to have **No categories**, **Categories only**, or **Categories & Weighting** in your Gradebook.

The **No categories** option is used when you want to have a simple grade calculation based strictly on the points or percentages of all your Gradebook items, without any groupings, weighting, or dropping of items.

The **Categories only** option is used for grouping similar Gradebook items, like all homework, or all projects. This option also allows you to drop grades within categories. If all items within a category have the same point value, you can choose to drop the highest grade, keep the highest grade, or drop the lowest grade within the category.

The **Categories and Weighting** option groups items and supports weighting of grades. For example, if all homework assignments added together comprise 20% of the final course grade, projects make up 50% of the course grade, and exams are worth 30% of the final grade, this option will allow you to group the items and weight them accordingly.

Note: If you use Categories, you must have at least one Gradebook Item in each category to enter grades. For example, if you have a Final Exam worth 30% of the final grade, you will need a Final Exam category AND a single Final Exam Gradebook item within that category.

*Tip: If you would like to be able to drop grades, you should select either **Categories only** or **Categories & Weighting**.*

Adding Categories

The screenshot shows the 'Categories & Weighting' settings page. At the top, there are three radio button options: 'No categories', 'Categories only' (selected and circled in red with a '1' callout), and 'Categories & weighting'. Below these are instructions: 'A category will only be visible if there is at least one Gradebook item assigned to it. If 'Categories & weighting' is enabled, uncategorized items will not be counted toward the course grade.' There are also checkboxes for 'Drop highest', 'Drop lowest', 'Keep highest', and 'Equal weight', with a note: 'To apply drop highest, drop lowest, or keep highest, all items in the category must have the same score value.' Below this is a table with columns: 'Category', 'Extra Credit', 'Gradebook Items', and 'Remove'. The table contains three rows: 'Exams', 'Assignment', and 'Discussions', each with a checkbox in the 'Extra Credit' column, '0 items(s)' in the 'Gradebook Items' column, and a 'Remove' button. The 'Category' column is circled in red with a '2' callout. At the bottom left, there is a blue button labeled 'Add a category' circled in red with a '3' callout.

Category	Extra Credit	Gradebook Items	Remove
Exams	<input type="checkbox"/>	0 items(s)	Remove
Assignment	<input type="checkbox"/>	0 items(s)	Remove
Discussions	<input type="checkbox"/>	0 items(s)	Remove

1. Select the radio button for **Categories only**.
2. View the category titles.
3. If you need additional categories, click on the **Add a Category** link to enter additional category titles.

Add a category

1. Select the radio button for **Categories & Weighting**.
2. View the different categories that you plan to weight in your grading scheme.
3. Enter the percentage weighting for each category.

Note: The percentage for all categories taken together must equal 100%.

If you selected either **Categories only** or **Categories & Weighting**, the enable drop/keep options will appear. All items within a category must have the same score value in order to use the drop/keep options for that category.

1. Select the check box next to each of the desired drop/keep options.
 - **Drop Highest:** Automatically drops the highest score/s among items in a category
 - **Drop Lowest:** Automatically drops the lowest score/s among items in a category
 - **Keep Highest:** Automatically keeps the highest score/s among items in a category
2. In the appropriate column, enter the number of items in each category that you wish to drop or keep.

Tip: Many faculty prefer to use Keep Highest as opposed to Drop Lowest, since it reflects a more accurate running total of student grades during the course of the term. Items that students have not yet completed are not dropped automatically, so one or more higher scores may be dropped until all items have been completed.

Selecting the **Equal weight** option in the Categories & weighting settings will add the **Equal Weight** column to the category options sheet. Checking the Equal Weight box will treat all items in that category as if they were scored out of 100% of the points possible for each item, regardless of the actual point value. Therefore, if you have items of different point values within the same category, all items still have an equal weight. This allows you to use the drop/keep highest/lowest options for a category containing items of different points.

If you would like to designate a category as extra credit, select the check box in the **Extra Credit** column next to the category. Extra credit items add to the student's total grade, but points do not detract from the overall grade if not completed. For more information on extra credit, see [How does extra credit work?](#)

Tip: Both entire categories and individual Gradebook items may be designated as extra credit. However, you cannot have an extra credit item within an extra credit category.
