

How do I post a status message to my profile?

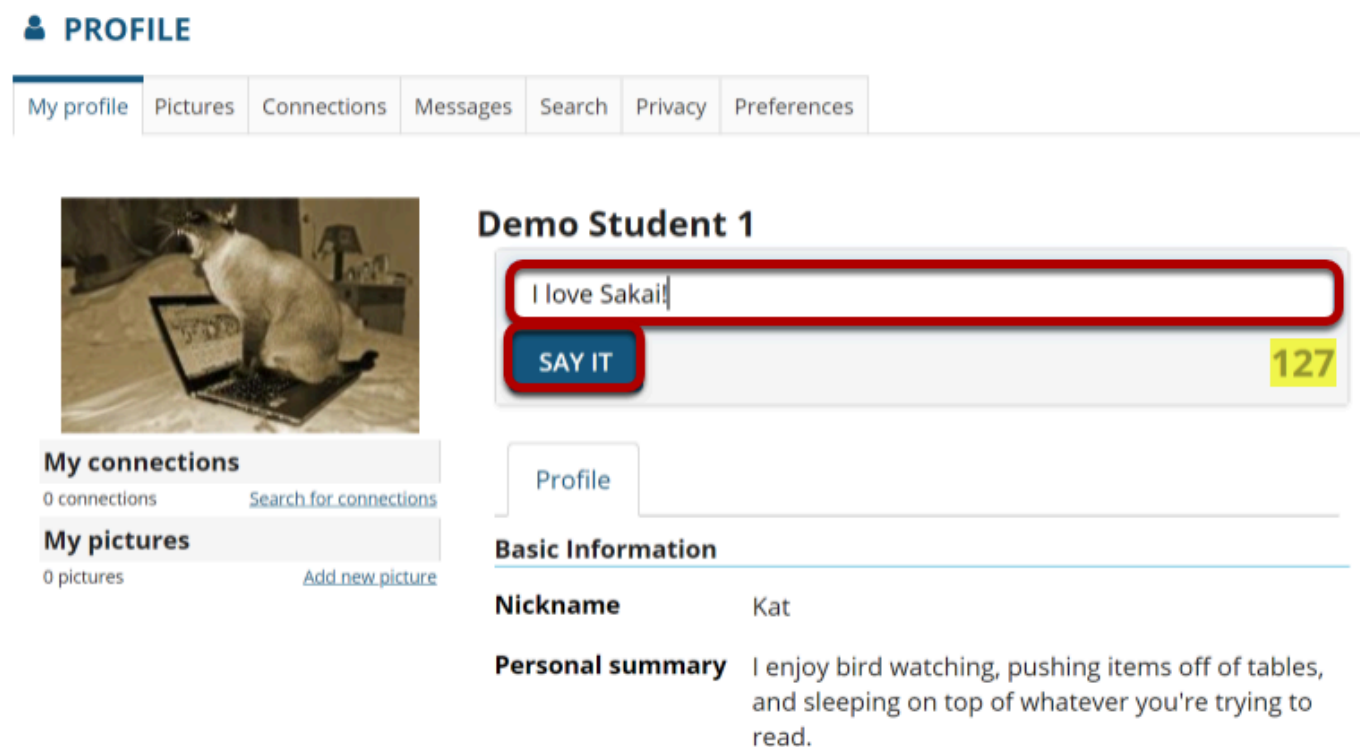

You can post to your wall in the Profile tool by entering a status message, or by posting directly to your wall.

Go to Profile.

Select the **Profile** tool from the Tool Menu in your Home area.

Enter a status message.

A screenshot of a user profile page for 'Demo Student 1'. The page has a navigation bar with tabs: 'My profile', 'Pictures', 'Connections', 'Messages', 'Search', 'Privacy', and 'Preferences'. Below the navigation bar is a profile picture of a cat sitting on a laptop. To the right of the profile picture is a status message input area with a red border containing the text 'I love Sakai!'. Below the input area is a blue 'SAY IT' button and a yellow '127' notification badge. Below the status message area is a 'Profile' tab. Underneath is the 'Basic Information' section with fields for 'Nickname' (Kat) and 'Personal summary' (I enjoy bird watching, pushing items off of tables, and sleeping on top of whatever you're trying to read.).

Enter your message into the text box provided and then click the **Say It** button.

Note: Status messages are limited to 140 characters. You will see a counter to the right of the text box that tells you how many characters you have remaining.

The message will appear at the top next to your name.
