

# How do I add a website link to a Lessons page?

Instructors can add links to Internet websites on a Lessons page.

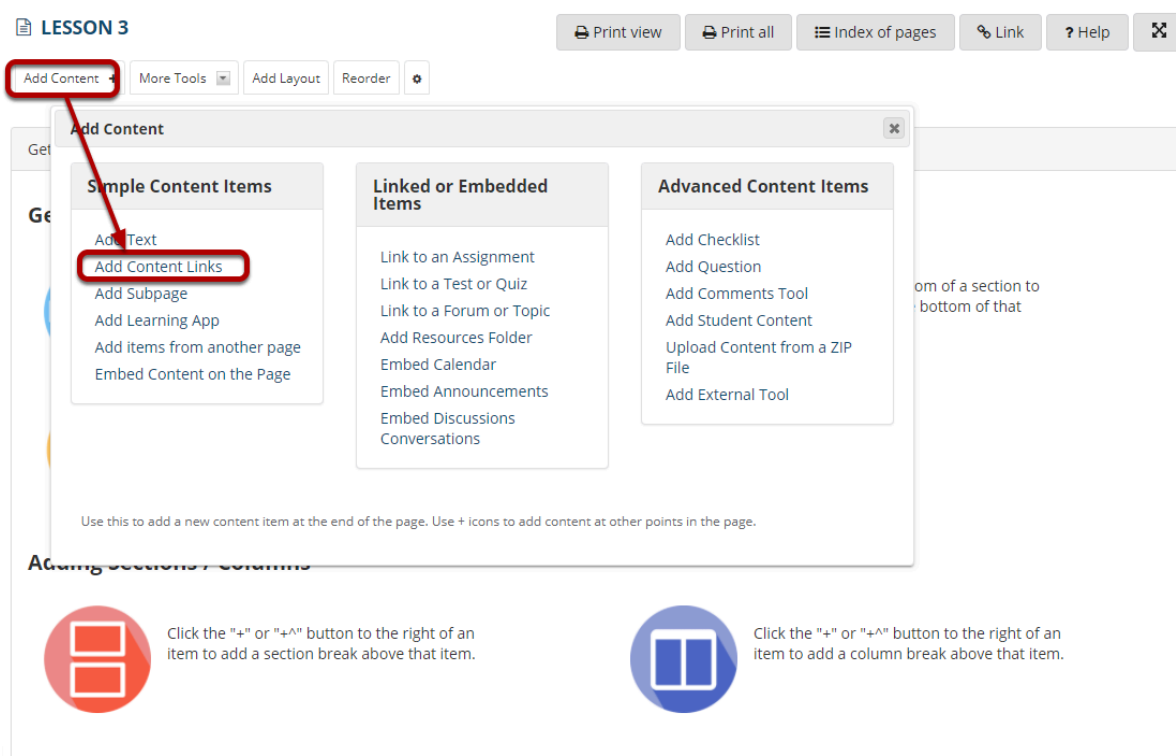

## Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

*Note: The default or blank Lessons page contains text and images that explain the basic functionality of the Lessons tool.*

## Click Add Content, then Add Content Links.

A screenshot of a 'LESSON 3' page. At the top, there are buttons for 'Print view', 'Print all', 'Index of pages', 'Link', 'Help', and a close icon. Below these is a toolbar with 'Add Content', 'More Tools', 'Add Layout', and 'Reorder'. The 'Add Content' button is highlighted with a red box. A red arrow points from this button to a large 'Add Content' dialog box. The dialog box has three columns: 'Simple Content Items' (with 'Add Content Links' highlighted), 'Linked or Embedded Items', and 'Advanced Content Items'. At the bottom of the dialog, there are two circular icons: a red one with a '+' sign and a blue one with a '+^' sign, each with a text instruction. The red icon's instruction is 'Click the "+" or "+^" button to the right of an item to add a section break above that item.' The blue icon's instruction is 'Click the "+" or "+^" button to the right of an item to add a column break above that item.'

From the **Add Content** menu, select **Add Content Links**.

## Select Add new URL (web link) and then enter the web address.

**Add Content Links** ✕

You may upload new files, select existing files from Resources, or supply the address of a page on the web.

Item Name

 [Upload new file](#)

 [Add new URL \(web link\)](#)

Add a URL:

Custom name to display for URL [optional]

 [Select existing file from Resources](#)

Don't Release Item Until All Prerequisites are Completed

Type (or copy and paste) the web address for the website in the text box labeled **Add a URL**.

## Click Save.

**Add Content Links** ✕

You may upload new files, select existing files from Resources, or supply the address of a page on the web.
