

# How do I create two columns inside a block on a Lessons page?

Each of the blocks on a Lessons page can be broken into two columns inside its borders. To create two columns inside a block, follow the steps below.

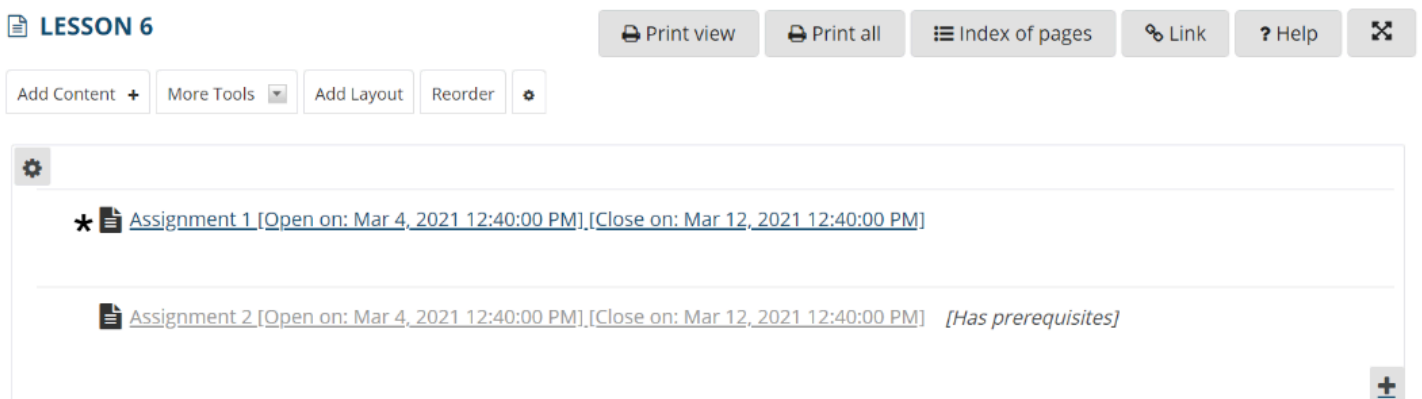

## Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

*Note: The Lesson page must already contain content before adding sections.*

## Add at least two content items in one block.

A screenshot of a Lessons page titled 'LESSON 6'. At the top right are buttons for 'Print view', 'Print all', 'Index of pages', 'Link', 'Help', and a close icon. Below these are buttons for 'Add Content +', 'More Tools', 'Add Layout', 'Reorder', and a gear icon. The main content area shows two assignment items: 'Assignment 1 [Open on: Mar 4, 2021 12:40:00 PM], [Close on: Mar 12, 2021 12:40:00 PM]' and 'Assignment 2 [Open on: Mar 4, 2021 12:40:00 PM], [Close on: Mar 12, 2021 12:40:00 PM] [Has prerequisites]'. A plus icon is in the bottom right corner of the content area.

# Click the Column Properties button.

The screenshot shows a lesson page editor for "LESSON 6". At the top, there are navigation buttons: "Print view", "Print all", "Index of pages", "Link", "Help", and a close button. Below these are "Add Content +", "More Tools", "Add Layout", and "Reorder" buttons. The main content area contains two assignment items: "Assignment 1 [Open on: Mar 4, 2021 12:40:00 PM][Close on: Mar 12, 2021 12:40:00 PM]" and "Assignment 2 [Open on: Mar 4, 2021 12:40:00 PM][Close on: Mar 12, 2021 12:40:00 PM] [Has prerequisites]". A red circle highlights a gear icon in the top left corner of the content block, with a red arrow pointing to the "Column Properties" dialog box. The dialog box has a close button (x) in the top right. It is divided into three sections: "Section Settings" with a "Section Title" input field, a "Collapsible" checkbox, and a "Double width" checkbox; "Column & Heading Styling" with a "Column & Heading Color Scheme" dropdown set to "Default", a "Force subpage button colors to match heading" checkbox, and a checked "Show Borders" checkbox; and a "Save" button (highlighted with a red circle) and a "Cancel" button.

The Column Properties button is located in the top left of the content block.

In the Column Properties pop-up window, check the box for **Two columns inside this one, text flows between them** and click **Save**.

# View two columns within the block.

The screenshot shows the same lesson page editor as before, but now the content block displays two columns side-by-side. The first column contains "Assignment 1 [Open on: Mar 4, 2021 12:40:00 PM][Close on: Mar 12, 2021 12:40:00 PM]" and the second column contains "Assignment 2 [Open on: Mar 4, 2021 12:40:00 PM][Close on: Mar 12, 2021 12:40:00 PM] [Has prerequisites]". A red circle highlights a gear icon in the top left corner of the content block, with a red arrow pointing to the "Column Properties" dialog box. The dialog box is the same as in the previous screenshot, but the "Double width" checkbox is now checked, and the "Save" button is highlighted with a red circle. The number "1" is circled in the top left corner of the content block, and the number "2" is circled in the top right corner of the content block.

You will now see two columns side-by-side inside a single content block.
