

How do I require completion of a Lessons item?

Most of the items that can be added to a Lessons page can be made "required." That is, students must open (if the item is a resource) or complete (if the item is a forum posting, quiz, assignment, question, comment or student page). Further, the Lessons tool allows instructors to require students to complete one item in the list before allowing access to other items in the list.

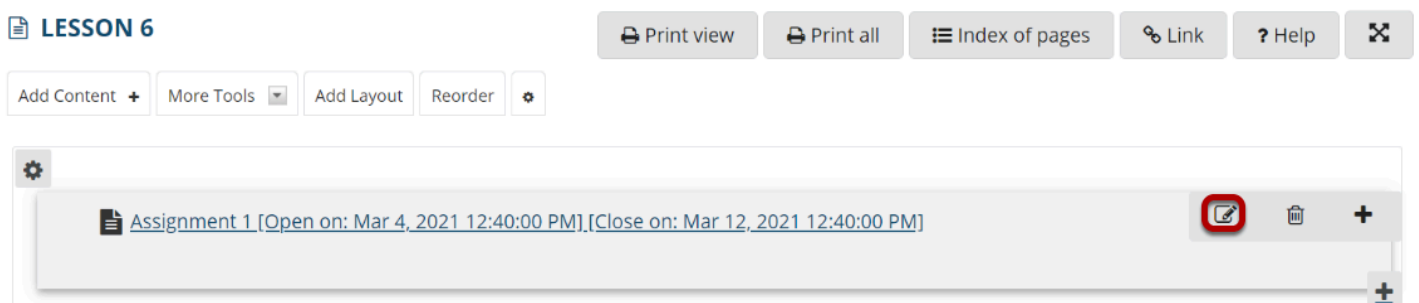

Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

Note: The default or blank Lessons page contains text and images that explain the basic functionality of the Lessons tool.

Click Edit for item that will be required.

Check Require that the student submit this assessment, then click Update Item.

Layout & Style

Prerequisites & Requirements

Don't Release Item Until All Prerequisites are Completed

Require that the student submit this assignment.

Require that the student receive points on this assignment.

Visibility & Access

Note: For graded items, such as assignments or quizzes, you may optionally specify a particular point value that must be earned on that item before the requirement is met.

Notice the asterisk.

+

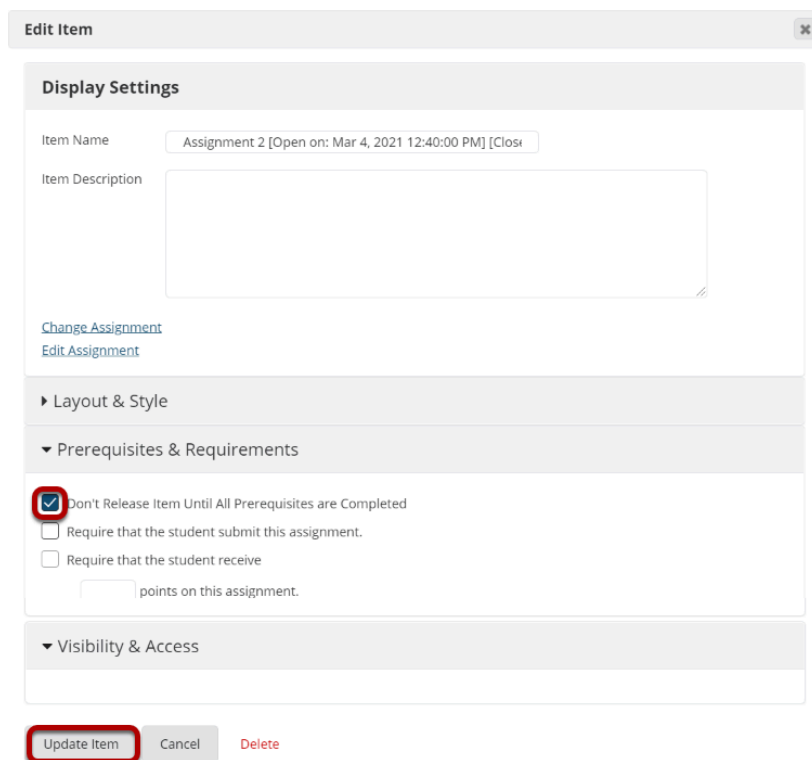

Notice that Required items are indicated with an asterisk to the left of the item.

To conditionally release based on prerequisites:

Click Edit for the item to be restricted.

Specify completion of prerequisites.

A screenshot of the "Edit Item" dialog box. The dialog has a title bar "Edit Item" with a close button. The main content area is divided into sections: "Display Settings", "Layout & Style", "Prerequisites & Requirements", and "Visibility & Access". In the "Prerequisites & Requirements" section, the option "Don't Release Item Until All Prerequisites are Completed" is checked and circled in red. Below it are two unchecked options: "Require that the student submit this assignment." and "Require that the student receive" followed by a text input field and "points on this assignment." At the bottom of the dialog, there are three buttons: "Update Item" (circled in red), "Cancel", and "Delete".

Check **Don't Release Item Until All Prerequisites are Completed** option, then click **Update Item**.

Notice prerequisite text.
