# How do I require completion of a Lessons page?

Instructors can require the completion of one Lessons page or subpage before allowing students to move on to subsequent Lessons pages or subpages in the Lessons hierarchy. That is, instructors can require that all of the required items on one page be completed before students have access to subsequent Lessons pages or subpages.

See <u>How do I require completion of a Lessons item?</u> for directions on requiring an item on a page to be completed.

### Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

Note: The default or blank Lessons page contains text and images that explain the basic functionality of the Lessons tool.

### Specify required items on the page.

See <u>How do I require completion of a Lessons item?</u> for directions on requiring an item to be completed.

Note: Required items are indicated by an asterisk. Required items that have been completed are indicated by a green check mark.

## Specify completion of prerequisites.

### Edit the item.

In the Prerequisites & Requirements section, select the check box next to Don't Release Item Until All Prerequisites are Completed and then select Update Item.

The Week 1 Lessons page items must be completed before a student can access the Week 2 Lessons page.

If a student clicks on the Week 2 page in the Tool Menu without completing all of the Week 1 Lessons page items, a message is displayed alerting the student that they cannot access the page until all of the Week 1 items are completed. (Instructors can access both top-level Lessons pages.)
