

How do students add content to Student Pages in Lessons?

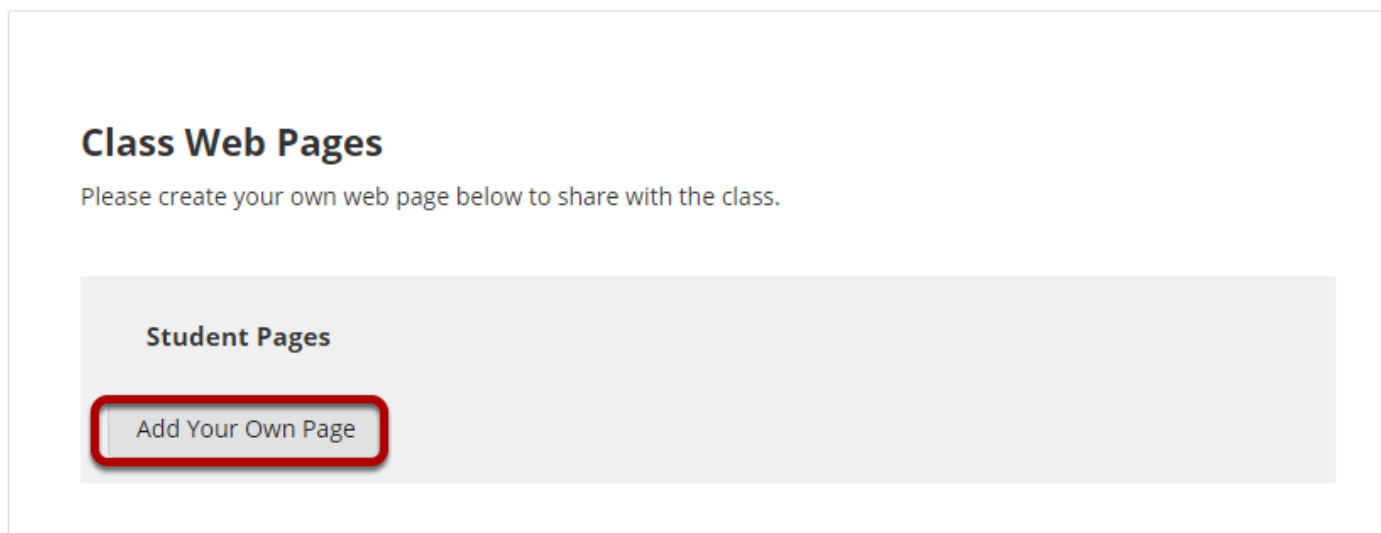

Go to Lessons.

Select the **Lessons** tool from the Tool Menu of your site.

Note: Be aware that your instructor may have named Lessons something else in your course, or there may be more than one Lessons item in the menu. Check with your instructor if you are not sure where to go to access the course lessons and/or content pages.

Click Add Your Own Page.

Once you have located the Student Pages section in the course content, click the **Add Your Own Page** link.

View blank page.

Getting Started with Student Content

To add content to this page, click on the + sign or use one of the icons. Options are:

- **Add Text** - Type text into an editor
- **Add Content Link** - Upload a document or add a URL for a web site
- **Embed Content on Page** - Add an item that will show on the page, e.g. a video
- **Add Subpage** - Create a new page and link it to this one.

Once you've added content, you'll find buttons to the right of each item where you can adjust the size of multimedia objects, change titles, add descriptive text, etc.

More Information

- [Multimedia Content](#) In-depth instructions and technical tips regarding various browsers
- [Web Accessibility](#) Create accessible content using Lesson Builder

When you view a blank page, some getting started information will display by default.

Click Add Content.

The screenshot shows the 'CLASS WEB PAGES' interface. At the top, there are buttons for 'Print view', 'Print all', 'Index of pages', 'Link', 'Help', and a close icon. Below these are buttons for 'Add Content +', 'Remove Page', 'Add Layout', 'Reorder', and 'Back'. The 'Add Content +' button is highlighted with a red box, and a red arrow points to the 'Add Content' dialog box. The dialog box has three tabs: 'Simple Content Items', 'Linked or Embedded Items', and 'Advanced Content Items'. The 'Simple Content Items' tab is selected and contains a list of options: 'Add Text', 'Add Content Links', 'Add Subpage', 'Add items from another page', and 'Embed Content on the Page'. The 'Add Text' option is highlighted with a blue box. The 'Linked or Embedded Items' tab contains 'Add Resources Folder'. The 'Advanced Content Items' tab is empty. A yellow box on the right side of the dialog box contains the text 'the size of multimedia'. Below the dialog box, there is a note: 'Use this to add a new content item at the end of the page. Use + icons to add content at other points in the page.' At the bottom, there are two links: '[Multimedia Content](#) In-depth instructions and technical tips regarding various browsers' and '[Web Accessibility](#) Create accessible content using Lesson Builder'.

Click the **Add Content** drop-down menu and then choose from the following types of items you may place on the page:

- **Add Text**
- **Embed Content on Page**
- **Add Content Link**
- **Add Subpage**
- **Add Resources Folder**

Add Text.

Select a file or enter a URL to add the item on the page as a link, and then click **Save**.

Add Subpage.

Add Subpage [X]

* Page title Giraffe eating habits *This field may not contain characters: | [] ^ ` \ {}

Next page. (I.e. this is assumed to be the next page in a sequence, rather than a subpage.)

Show as button rather than link

Button Color Default [v]

Create Cancel

A Subpage is a new page (or "child" page) that links from the current page (or "parent" page) above it in the page hierarchy. Subpages have the same options for adding content as the original parent page.

Give your subpage a title, then click **Create**.

Note: You can choose to modify the navigation (if you have more than one subpage) by selecting the check box beside **Next page**. This means that the subpage will replace the current one when users hit Next, rather than returning to the parent page. Also, if you would like your subpage to show as a button, select the check box next to **Show as button rather than link**.

Add Resources Folder.
